---

The sport is inexpensive and therefore inclusive. The course is free to play and the purchase of a single disc for less than \$15 will get you started.

Disc golf courses are easy to install. They can offer the highest return for a park with a very low-cost investment.

Once installed, a disc golf course has very few maintenance costs associated with upkeep and operation.

The course will attract people year-round which can discourage the misuse of the park.

A typical 18-hole round takes about two hours, so parking should not be an issue as players will come and go.

Disc golf courses attract players from far and wide who will have the opportunity to patronize local businesses.

---

# DESIGN OBJECTIVES

18-HOLE COURSE

PLAYER FRIENDLY

WORK WITH  
LANDSCAPE

MINIMIZE  
NEIGHBORHOOD  
IMPACT

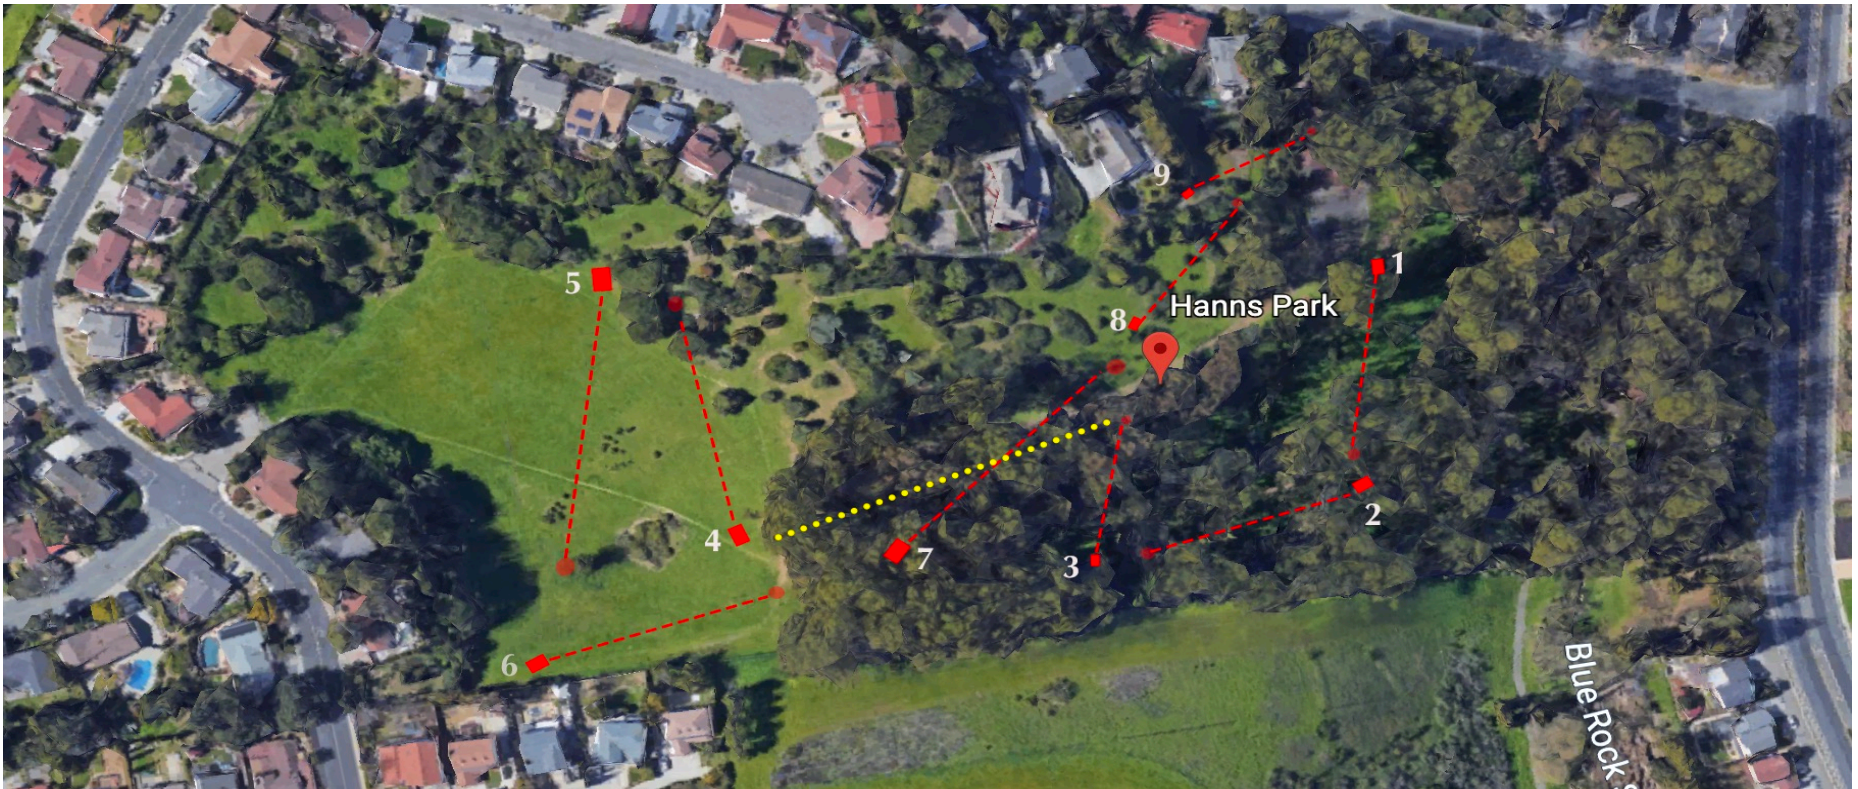

SHARE PARK WITH  
OTHERS

PROMOTE SAFETY
